

International Handbook of Neuropsychological Rehabilitation

By Christensen, Anne-Lise / Uzzell, Barbara P.

Book Condition: New. Publisher/Verlag: Springer, Berlin | The most comprehensive, international and up-to-date text of neuropsychological rehabilitation | This volume provides comprehensive international coverage of neuropsychological rehabilitation. It contains scientific discussions of dynamic brain changes (genetics, structure, physiology and hormones) plasticity of the central nervous system, functional reorganization and brain repair in response to treatment in all stages, and emphasizes acute care of early and precise diagnostics. It is intended for clinicians, professionals and students in neuropsychology, health psychology, rehabilitation, behavioral neurology, occupational and physical therapy. | Preface. Foreword; D.N. Cope. Acute Care Management & Brain Recovery. 1. Guidelines for Acute Head Injury Management; C. Kock-Jensen, G.M. Teasdale. 2. Brain Injury and Theories of Recovery; D.G. Stein. 3. Empirical Support for Neuropsychological Rehabilitation; J. F...

Reviews

Completely essential read through publication. It normally does not expense excessive. It is extremely difficult to leave it before concluding, once you begin to read the book.

-- **Morris Cruickshank**

This book can be worthy of a read, and much better than other. It usually fails to charge a lot of. I realized this publication from my dad and i encouraged this pdf to understand.
