Approximation and Optimization

By Juan A. Gomez-Fernandez

Springer Jan 1989, 1989. Taschenbuch. Book Condition: Neu. 235x155x15 mm. This item is printed on demand - Print on Demand Titel. Neuware - Nonparametric polynomial density estimation in the L P norm.- Local spline interpolation schemes in one and several variables.- On the rate of rational approximation of analytic functions.- Parametric optimization: Pathfollowing with jumps.- Optimization problems in the robustness analysis of linear state space systems.- A principle of contamination in best polynomial approximation.- Nearby sets and centers.- Approximation by lipschitz functions and its application to boundary value of cauchy-type integrals.- Asymptotics for the ratio of the leading coefficients of orthogonal polynomials associated with a jump modification.- Convergence of pade approximats in a non-commutative algebra.- Subsets of unicity in uniform approximation.- On qualitative Korovkin theorems with a-distance.- Relative asymptotics of orthogonal polynomials with respect to varying measures II.- On the rational approximation of HP functions in the LP() metric.- On the trajectories of inclined oil-wells.- On some contributions of Halasz to the turan power-sum theory.- On the m-th row of newton type (,)-PADF tables and singlar points.- On simul taneous rational interpolants of type (,)- Généralisation de formules de bornage de L-I et applications aux...

Reviews

Comprehensive information! Its this type of very good read. It is writter in basic words instead of hard to understand. You are going to like how the article writer compose this pdf.

-- **Mabel Corwin**

A superior quality ebook and also the font used was interesting to read through. This is for all who statte there was not a well worth reading. I discovered this publication from my dad and i encouraged this pdf to learn.
