By Battle Creek Sanitarium

Rarebooksclub.com, United States, 2012. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1898 Excerpt: .this case took place through the thoracic duct. Wyss ( Zur Kasuistik der primären Darmtuberkulose im Kindesalter, Correspondenzblatt f. Schweizerdrzte, 1893, No. 22) found in seventy-one postmortems on children three instances of undoubted primary intestinal tuberculosis. In one case, a girl of five and three-fourths years old, who had died of diphtheria, a solitary tubercular ulcer was found in the ileum, with extensive tuberculosis of the mesenteric glands. No trace of tuberculosis could be detected in any other organ. Upon inquiry it was ascertained that the child had been fed on milk almost exclusively for some time before she had contracted diphtheria. In the other two cases the disease could be traced to the same cause. Such evidence as this, concerning the etiology of a disease which has such terrible results must at least cause us to ask ourselves the question, Is there danger in the...
